COMMAND DIRECTORY

HYPERINTELLIGENCE ENGINE NEURAL REASONING YIELD COMPLETE SYSTEM MANUAL

All Voice and Text Commands Offline Engines Autonomous Document Creator Vision Intelligence

HOW TO COMMAND H.E.N.R.Y: Tap the central animated Orb or [Mic] button for speech, or type in the input bar and press [Send]. Say "HENRY"

1. AI Intelligence, Deep Reasoning & Learning

Conversational, cognitive reasoning, academic tutoring, and multi-language translation commands.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Explain quantum computing like I'm 5	Voice/Text	Socratic breakdown adapting depth to user level
Give me a flashcard on cellular respiration	Voice/Text	Generates interactive study flashcard
Quiz me on world history / anatomy	Voice/Text	Launches interactive multiple-choice trivia quiz
Argue both sides of AI regulation	Voice/Text	Debate mode: analyzes arguments and counterarguments
Translate [sentence] to [language]	Voice/Text	Translates speech into 30+ spoken languages
What can I cook with eggs, tomatoes and rice?	Voice/Text	Artisan culinary recipe generator with timing
Draft a message to [person]: [details]	Voice/Text	Smart Compose drafting with tone customization
Deep research: [complex question]	Voice/Text	Multi-model consensus tournament & synthesized answer
Why do leaves change color in autumn?	Voice/Text	Natural science explanation with biochemical context

2. H.E.N.R.Y. Document & File Engine

Autonomous multi-format document creator with APA 7 research citations, styling, and charts.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Create a PDF document on Climate Change	Voice/Text	Generates styled PDF with sections, tables & citations
Generate a Word document on [topic]	Voice/Text	Builds .docx with headings, executive summary & bullet points
Make a PowerPoint presentation on Mars Colonization	Voice/Text	Creates .pptx presentation deck with presenter notes
Create an Excel sheet of monthly business budget	Voice/Text	Generates .xlsx workbook with formulas and headers
Create a Markdown document on System Architecture	Voice/Text	Generates clean .md file with code blocks
Generate document with research citations	Voice/Text	Injects real academic APA 7 references and data
Create a recipe PDF for chocolate chip cookies	Voice/Text	Produces styled culinary recipe card with baking science
Create a PDF of all commands	Voice/Text	Generates this complete commands manual directly as PDF

3. Vision Intelligence & Multi-Attachment Vision

Camera AI, computer vision, document OCR, object tracking, and multi-image analysis.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Classify image / What is this?	Voice/Text	ML Kit real-time label identification
Detect objects / Locate objects	Voice/Text	Bounding box object detection overlay
Track object in live camera	Voice/Text	Dynamic real-time object tracking with crosshair HUD
Facial recognition / Detect face	Voice/Text	Facial landmark, contour, and emotion detection
Find similar images / Reverse image search	Voice/Text	Visual embedding retrieval and similarity matcher
Scan document / Clean OCR scan	Voice/Text	Auto-edge cropped document scanner with text extraction
Scan QR code / Barcode	Voice/Text	Instant URL and payload QR reader
Animal scanner / What animal is this?	Voice/Text	Wildlife species identification and habitat facts
Attach multiple photos [up to 10] or PDF	Voice/Text	Tap [Paperclip] to analyze multiple visual attachments simultaneously

4. System, Device Control & Screen Recording

Direct hardware control, utility tools, screen capture, and floating overlay controls.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Torch on / Flashlight off	Voice/Text	Toggles device LED flashlight instantly
Set brightness to 70%	Voice/Text	Adjusts screen backlight level
Do Not Disturb on / off	Voice/Text	Toggles Android system DND mode
Battery status / Battery report	Voice/Text	Speaks percentage, temperature, and charging state
Alert me when battery drops below 25%	Voice/Text	Battery Guardian background monitoring alert
Record screen / Stop recording	Voice/Text	HD system screen recorder with floating HUD control
Screen record studio	Voice/Text	Studio mode: AI YouTube/TikTok title & script generator
Play Spotify / Pause music / Next song	Voice/Text	Hardware media session playback control
Volume up / Volume down / Set volume to 50%	Voice/Text	Adjusts media audio volume
Test my internet speed	Voice/Text	Executes ping, download, and latency speed test
Open [App Name] (e.g., YouTube, WhatsApp)	Voice/Text	Launches any of 35+ supported Android applications

5. Navigation, 3D Earth Globe & Location

Geographic intel, 3D globe visualization, turn-by-turn routing, and local services.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Open Earth map / 3D Globe	Voice/Text	Interactive 3D WebGL globe with geopolitical briefings
Navigate to [Destination]	Voice/Text	Opens turn-by-turn Google Maps navigation
How long to [Place] / Travel time	Voice/Text	Calculates ETA via driving or walking (OSRM)
Restaurants near me / Coffee shops nearby	Voice/Text	Locates nearby amenities via OpenStreetMap
Hospitals near me / Gas station nearby	Voice/Text	Emergency proximity navigation
Book a ride / Call an Uber / Careem / Grab	Voice/Text	Dispatches destination directly to ride apps
Share my location with [Contact]	Voice/Text	Generates and sends GPS location coordinates
Tell me about [Landmark/City]	Voice/Text	Wikipedia geographic details and cultural history

6. Space & Real-Time Astronomy Radar

NASA live orbital telemetry, deep space imagery, and near-Earth celestial tracking.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Asteroid watch / Near-Earth asteroids	Voice/Text	NASA close-approach telemetry and hazard radar
Where is the ISS? / Space station tracker	Voice/Text	Live International Space Station coordinates & speed
NASA photo of the day / Deep space APOD	Voice/Text	Daily high-res astrophysics discovery & explanation
Space weather / Solar flare status	Voice/Text	NOAA solar storm and geomagnetic condition briefing

7. Finance, Crypto & Productivity Suite

Live market tickers, personal accounting, secure vault, and task management.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Bitcoin price / Ethereum price / Solana	Voice/Text	Live cryptocurrency quotes via CoinGecko
Gold price today / Crude oil price	Voice/Text	Spot commodity market prices
Apple stock / Tesla stock / NVIDIA	Voice/Text	Stock ticker and daily percentage change
Convert 250 USD to AED / EUR / PHP / GBP	Voice/Text	Real-time exchange rate for 170+ currencies
I spent [amount] on [category]	Voice/Text	Logs expense to local SQLite ledger
My expenses this month / Spending report	Voice/Text	Categorized breakdown of monthly expenditures
Save password for [service]: [pass]	Voice/Text	Stores credential in AES-256 encrypted local vault
What is my [service] password?	Voice/Text	Biometric-authenticated credential retrieval
Generate a strong password	Voice/Text	Generates high-entropy cryptographic password
Add task: [title] [high/medium/low priority]	Voice/Text	Creates to-do task with priority level

COMMAND PHRASE (CONT.)	TYPE	ACTION & SYSTEM CAPABILITY
My tasks / Mark [task] done	Voice/Text	Reviews to-do list and checks off completed items
Add [item] to shopping list / My shopping list	Voice/Text	Manages voice shopping checklist

8. Communication, Calls & Emergency SOS

Voice-dispatched cellular calls, SMS messaging, WhatsApp, and emergency distress.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Call [Contact Name]	Voice/Text	Initiates native cellular phone call
Text [Contact Name]: [message]	Voice/Text	Dispatches SMS text message to contact
WhatsApp [Name]: [message]	Voice/Text	Opens direct WhatsApp chat with prefilled text
Draft an email to [Name] about [Subject]	Voice/Text	Prepares rich email draft ready to send
SOS / Emergency distress	Voice/Text	Transmits distress alert with live GPS coordinates to SOS contact
Set SOS emergency contact to [Name]	Voice/Text	Configures primary emergency broadcast recipient

9. Health, Fitness & Mental Wellness

Biometric health calculators, pedometer, sleep mode, and emotional wellness.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
How many steps today? / Step counter	Voice/Text	Reports daily step count and distance walked
Set my step goal to [number]	Voice/Text	Updates daily physical activity target
My BMI -- I'm [weight] kg and [height] cm	Voice/Text	Calculates BMI and clinical classification
How much water should I drink today?	Voice/Text	Hydration calculation based on climate and activity
Calorie calculator / What is my TDEE?	Voice/Text	Total Daily Energy Expenditure estimation
Goodnight Henry, wake me at 6:30 AM	Voice/Text	Activates Sleep Mode: DND + alarm + low brightness
Start breathing exercise / 4-7-8 breathing	Voice/Text	Haptic-guided diaphragmatic relaxation session
I feel stressed / Log my mood	Voice/Text	Emotional tracking and reflective journaling
Mood report / Mood trends	Voice/Text	Historical mood distribution analysis

10. Brain Hub & Cognitive Modules

Neuroscience-inspired cognitive expansion and brain training protocols.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Open brain / Neural command center	Voice/Text	Opens interactive 9-region cognitive brain view
Guided visualization / Mental imagery	Voice/Text	8 immersive audio-guided visualization journeys
Ocean calm / Mountain ascent / Cosmic perspective	Voice/Text	Specific guided imagery relaxation sessions
Neural plasticity training / Brain exercises	Voice/Text	Stroop, Dual N-Back, and executive function drills
Default mode network / Mind wandering	Voice/Text	Incubation reflection and future-self dialogue
Sensory substitution / Color to sound	Voice/Text	Translates visual frequencies to audio harmonics
Haptic braille vibration	Voice/Text	Vibrotactile text encoding on device hardware

11. Real-Time Trackers & Smart Home

Live flight tracking, sports scores, logistics tracking, and home automation.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Track flight [Flight Number] (e.g. EK201, AA100)	Voice/Text	Live aircraft altitude, route, departure/arrival ETA
Live sports scores / NBA / Premier League	Voice/Text	Real-time game scores, standings and match recaps
Track package [Tracking Number]	Voice/Text	Automated carrier detection (DHL, FedEx, UPS, Aramex)
Turn on living room lights / Smart home	Voice/Text	Direct bridge to Google Home or Amazon Alexa ecosystem

12. Time, Notes, Alarms & Security

Timers, voice notes, daily digests, and biometric app lock.

VOICE / TEXT COMMAND PHRASE	INPUT TYPE	ACTION & SYSTEM CAPABILITY
Set timer for [X] minutes / Start countdown	Voice/Text	Background audio countdown timer
Start stopwatch / Stop stopwatch	Voice/Text	High-precision millisecond stopwatch
Set alarm for [time] (e.g. 7:00 AM)	Voice/Text	Native Android system alarm
Start Pomodoro / 25 minute focus	Voice/Text	Productivity interval timer with break cues
Note: [text] / Read my voice notes	Voice/Text	Quick speech-to-text note capture
Journal entry: [thoughts] / Read my journal	Voice/Text	Timestamped personal voice journal
Lock app / Biometric lock / Enable face unlock	Voice/Text	Biometric facial & fingerprint security gate
Stealth mode on	Voice/Text	Conceals app preview and silences notifications

PRO TIPS & ADVANCED VOICE WORKFLOWS

1. Multi-Attachment Vision:

Tap the [Paperclip] icon to select up to 10 images or read PDFs. HENRY processes multi-image visual questions.
2. Voice Accents & TTS Speed:

Long-press the [Trash] button to select American, British, Filipino, French, Australian, or Japanese TTS accents.
3. Suggestion Chips Customization:

Long-press any quick-suggestion chip under the Orb to customize it with your favorite command.
4. Direct File Creation & Sharing:

Say "Create a PDF on [topic]" or "Create Word document" files open directly in your Android viewer or share sheet.
